Sancerre

Domaine Rimbault Philippe

Vineyards size

20 Hectares

Farming

Lutte raisonnée

History

Philippe is part of a winemaker family that started to do wine in 1700's.

Now he owns vineyards on both sides of the Sancerre river which allows him to make several wines: Sancerre, Côteaux du Giennois, Pouilly Fumé

The top value of the domaine

Each wine is showing the quality of the soil and the purity of the work of Philippe.

Change the farming trying to be organic" lutte raisonnée", as well to work more vineyard by vineyard to show top cuvées from his different terroirs. He is so well know that he is the responsible for research on farming for the Sancerre appellation.

He built a modern cuverie to be more efficient at harvest, but also to get the time to raise the wines slowly on lies and get complexity

A few words

Wines are very expressive and each cuvée has its own personality

The basic Sancerre is Apud Sarracum, it is done with grapes only coming from the area of Sury-en-Vaux.

Sancerre les Godons is a single parcel wine which looks like a natural amphitheater.

The 2 Pouilly Fumé that he is doing are quite different due to the differences in the soils
