

Domaine Duseigneur

CHÂTEAUNEUF DU PAPE CATARINA RED

Rouge - Côte du Rhône

Presentation

Terroir

Catarina is a blend of three different soil types : round pebbles, sand and limestone. The three plots are located in Colombis, Bois de la Ville and Grand Devès lieux-dits, near the village of Châteauneuf-du-Pape.

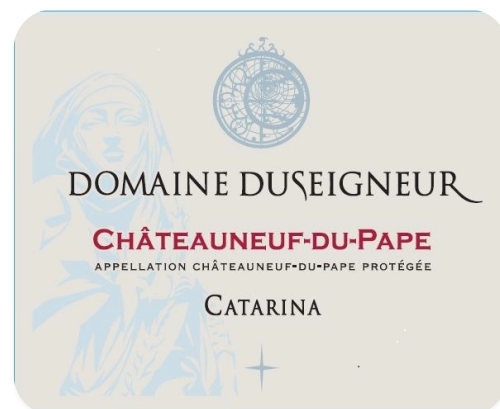

The vines are 60 years old on average.

Varietals

Grenache from 90 to 100% depending on the vintage. The rest of the blend can be made of Syrah, Mourvèdre and Cinsault.

Winemaking and ageing

The average yield is 30hl/ha. The grapes of each plot are vinified separately. Depending on the vintage, part of the harvest is not destemmed. The juices are vinified using natural yeasts for 4 to 5 weeks in cement tanks. The ageing is carried out in old French oak demi-muids during 12 months.
