7,5 hectares

Farming

Organical farming using some techniques of biodynamy

History

Michel Mas worked with his father Paul Mas in the family domaine since the beginning of the 90s, but it's in 2006 that his own adventure started. He created his own domaine named Casa Delys, in Occitan "the house of the lily". This domaine is located cloth to Pezenas, just next to the family castle.

The top value of the domaine

The Terroir is made of limestone from the Miocène era, an old deep sea soil with many shelves. The vineyard is worked respecting the nature, putting some barley, alfalfa and some birdsfoot. Michel Mas has a great savoir-faire and he is using the Organic Forestry method and some biodynamic techniques.

A few woods

Casa Delys is a perfect mix between tradition and innovation, it is listening to the nature and follow the wines with care, respecting time and being patient

The deal soil bring richness and diversity in the oligo-elements that reveal tannins, color and some atypic taste.
Wines comes from Viognier, Syrah, and Cabernet Sauvignon.
